

BEAT THE HEAT

Welcome to the 2009 national desexing month “Beat the Heat” campaign!

The aim of the campaign is to remind responsible pet owners like yourself about the importance of desexing your companion animals before the start of the breeding season.

There are many reasons to desex your pets but our major focus is to bring an end to cat and dog overpopulation. Every hour of every day around 23 healthy cats and dogs are euthanased in shelters and pounds around Australia simply because they have no homes. That’s around 550 healthy cats and dogs a day. Simply because they have no homes.

Once the breeding season starts, and kittens and puppies start to fill shelters, pounds, pet shops, markets, newspapers and community noticeboards it is much harder to find homes for the many cats and dogs already waiting for homes.

Reducing the number of accidental litters helps reduce euthanasia of healthy cats and dogs. Thank you for helping to save lives by desexing your pets.

Throughout the month of August, vets, councils and animal welfare organisations offer incentives like subsidies, discounts and special deals to pet owners desexing their pets. Generous sponsor Dirty Dog Eyewear are also on board for the third year running and have supplied 30 pairs of the latest Dirty Dog sunnies to be won. Get your entry form from your participating vet when you have your pet desexed.

A list of participating vets, councils and organisations is now available. Owing to a delay in getting our packs out to the vets this list is not yet complete and will be updated over the following week. Please check back regularly to see if the vets in your area are participating. If you think your local vet or council may want to get on board please let us know and we will ensure they are sent an invitation.

To see the list of participating vets and councils please scroll down.

BEAT THE HEAT

A word about our wonderful sponsors!

Without the generous contributions of our sponsors there would be no National Desexing Month, please take time to visit our sponsors and help us show them how much we appreciate their support.

Animal Welfare League Qld

The parent organisation of NDN. The Animal Welfare League of Qld takes care of approximately 12,000 strayed and abandoned animals annually from the Gold Coast and surrounding areas.

The AWL specialises in the care, shelter, and rehoming of dogs and cats. Since 1959, the AWL has opened its doors and hearts to all companion animals in need. As well as providing on-site care at its' two Rehoming Centre's, the AWL has a fostering and rehabilitation program that is second to none.

Along with a high focus on rehoming, the AWL continues to increase community awareness about how to end the tragedy of pet overpopulation. Our goal is to bring an end to the euthanasia of healthy animals in Australia through legislative changes, education and awareness.

Dirty Dog Eyewear

Dirty Dog is all about attitude, for sure. But attitude without substance is just wasted! Great sunglasses don't just happen, they evolve, and Dirty Dog's manufacturing process has been perfecting lenses and frame designs for over 15 years.

We make sunglasses for real people living real lives who want sunglasses that are up to 'it'. Whatever 'it' is, 'It' could be working a ten hour day on a building site, back-packing across Europe, slamming face-first down a massive slope on a snow board, or having coffee with friends at your favourite cafe! An independently owned and operated company, Dirty Dog is able to provide the quality and character to reach the international market without all the red tape, yet at an affordable price. With a range from sports frames to handmade acetate frames suitable for prescription lenses we have something for everyone.

The point is our frames don't just look great; they've got what it takes to back it up. Comfortable frames made of the toughest best quality optical materials to last the distance.

We don't compromise. We don't take anything for granted and we don't stop striving to take things to the next level. Call it attitude, call it 'keeping it real', we call it Dirty Dog.

PetRescue

PetRescue is a not-for-profit organisation that finds new homes for lost and abandoned pets. We believe every homeless pet deserves the chance to find a new loving family, but with rescue groups across the country struggling to feed and care for animals, many pets miss out on homes simply because nobody knows they are available.

Through our rehoming programs, PetRescue makes it easy for potential adopters to find and save a rescue pet. Our website is the largest online, searchable directory of rescue pets in Australia, making it a hub for rescue groups, pet lovers and friends like you.

More than 10,000 pets find homes each year thanks to their PetRescue listings. But still over twenty times that number are killed each year in Australia because homes can't be found for them.

IMPORTANT!! PLEASE READ THE FOLLOWING TEXT BEFORE LOCATING YOUR NEAREST VET.

PLEASE NOTE: Vet clinics and councils are still being loaded so please check back regularly for updates.

Thank you for being a responsible cat or dog owner, please ensure you advise the clinic when you phone to book that you are booking the National Desexing Month deal. Clinics are sorted by state and postcode.

Conditions apply to all costs shown, ie pregnant, in season, cryptorchid, overweight or aged cats or dogs may incur extra charges.

Please ensure you thank the wonderful vets participating in the National Desexing Month (NDM) for their kindness and please consider using them for future services your cat or dog may need.
