

This baby can have
babies of her own!

Most people don't know that a cat can have her first litter at the age of five months, and just one litter means that four or more good homes must be found! That is why there are so many strays, and why our shelters are full of cats. So do your cat, and everyone, a favour. . .

Desex your cat by the age of
5 months. Before her first litter!

To find affordable desexing services, call The National Desexing Network on **1 300 368 992** or visit our website at www.ndn.org.au

The National Desexing Network is a program of the Animal Welfare League of Queensland Incorporated. For information and resources please visit our website www.ndn.org.au
