

Littermates can litter!

Some people keep two or more littermates, not realising that they can breed. If you have two young cats of opposite sex, remember to desex them by five months, or keep them separate. If not, you will end up with litters of kittens on your hands!

To find affordable desexing services, call The National Desexing Network on 1 300 368 992 or visit our website at www.ndn.org.au

The National Desexing Network is a program of the Animal Welfare League of Queensland Incorporated. For information and resources please visit our website www.ndn.org.au
